

Work for 4th Class 25/03/20 - 03/04/20

As all schools are to remain closed for the next week, we have devised a body of work which your child may engage with while at home.

This work is to help keep your child engaged in their learning while schools are closed.

We also encourage children to also keep reading, play board games, bake, get fresh air and engage in outdoor activities if possible and within the HSE recommendations.

The school work outlined below encourages independent learning and revision.

All children learn in individual ways and some children will fly through the suggested assignments while others will struggle with the workload. Please use your own judgement and base amount work completed on your child's ability and pace.

Please don't worry about your child falling behind if they don't complete all assigned work and put undue stress on your child to complete everything. Decide on a maximum amount of time, you as a parent feel your child can work at independently and successfully each day.

Gaeilge -

Continue with Fiacla Mamo and activity sheets sent last week

Print out and complete the following sheets

This is only a guide. Please use your own discretion as to how much or little to do.
It is extremely important that we are all safe and happy and are getting lots of fresh air.

Stay safe
